

# PRODUCT DATA SHEET

## ADAPTER 1 and 2

### DESCRIPTION

Unit for detecting water leaks and automatically shutting off water supply. Detection is performed by sensor cable/tape. In case of leakage the unit will give a warning sound while activating the solenoid valve that closes the water. Automatic valve excersing prevent it from being stuck.

### APPLICATIONS

For use in homes, holiday homes and commercial buildings.

### TECHNICAL SPECIFICATIONS

Mains voltage	230V AC 50hz
Power consumption (no alarm)	9mA
Power consumption (by alarm incl. valve)	100mA

### MEASURES ADAPTER

H x W x D (mm)	111 x 47 x 31
Length valve cable	1550 mm
Weigth central unit	300 g

### CONNECTIONS

1 sensor port for sensor cable  
230V port for external units, max power supply 10A / 2,3kW

### NRF-numbers for ADAPTER NO (normally open valve)

WG 1/2" Adapter w/power cut	NRF no. 5648184
WG 1/2" Adapter w/power cut, 2 valves	NRF no. 5648186
WG 3/4" Adapter w/power cut	NRF no. 5648185

### NRF-numbers for ADAPTER NC (normally closed valve)

WG 1/2" Adapter w/power cut	NRF no. 5648187
WG 1/2" Adapter w/power cut, 2 valves	NRF no. 5648188
WG 3/4" Adapter w/power cut	NRF no. 5648189

### ASSOCIATED PRODUCTS

Sensor cable 10 m w/jack plug	NRF no. 5648229
Sensor cable 4 m w/jack plug	NRF no. 5648228
Sensor tape, flat 3 m	NRF no. 5648223
Jack adapter for flat sensor tape	NRF no. 5648221
Solenoid valve 1/2"	NRF no. 5640101
Solenoid valve 3/4"	NRF no. 5640036
Solenoid valve 1"	NRF no. 5640027
Split cable for two Solenoid valves	NRF no. 5648199

### PACKAGE CONTENT

Adapter

1 or 2\* solenoid valves

Jack adapter

Sensor tape

Split cable + screw for valve contact\*

\* Only in packages with 2 valves!
